

FIRST IN BAMBOO

Over 20 Years of Innovation

The story of Totally Bamboo began in a land of stories... well, just north of it.

Tom and Joanne Sullivan owned Hollywood Chairs in North Hollywood, supplying director's chairs to top movie and television productions. In a quest to improve upon their famously comfortable foldable chairs, the Sullivans began experimenting with other material options. They wanted something lighter than their existing oak chairs yet still strong enough to last through the production of a blockbuster picture (and its inevitable sequels).

After exhaustive research, they found one material fit the bill better than any other— *bamboo!*

Bamboo has a higher tensile strength than steel *and* the chairs were still light enough for anyone to carry. Not only is bamboo a better material option, but it's better for the planet too. Despite its tough exterior, bamboo is actually a grass. When harvested, the roots remain and quickly regenerate. It's a truly remarkable and renewable resource.

The success of bamboo in chairs led Tom and Joanne to consider other uses for this amazing material. They used their combined art and design backgrounds to invent the FIRST bamboo cutting board. This cutting board crafted from "engineered bamboo," was light and durable, harder than maple yet gentle on knives. With this brilliant innovation, Totally Bamboo was born!

Totally Bamboo has continued to innovate since the inception of the bamboo cutting board. After the initial Hawaiian Collection Bamboo Cutting Boards, TB also created:

- The First Laminated Bamboo Salad Bowl
- The First Bamboo Boards with a Decorative Bamboo Inlay
- GreenLite™: The First Dishwasher-Safe Bamboo Cutting Boards

These innovations and more have led to Totally Bamboo's current lineup of masterfully crafted cutting boards, beautifully designed bowls, clever utensils and smart storage solutions.

Totally Bamboo products are designed in California.

CUTTING BOARDS

CUTTING & SERVING BOARDS

Founders Tom and Joanne Sullivan created the first bamboo cutting board over 20 years ago!

Today, their original values of quality and artistic craftsmanship can be seen in all of Totally Bamboo's cutting board offerings. Our vast lineup has something for everyone to suit all needs and price points.

Product Spotlight:

Big Easy

It's not from New Orleans, but this board lives up to its name. This supersized chopping block offers over 250 square inches of prep and serving space. Your more discerning customers will love its vertical-grain bamboo construction for its durability and knife-friendliness. And despite its "big" size, the board is "easy" to carry thanks to its clever hollow design.
